Interviewing Dates April 22 - 24, 2020

Target population U.S. citizens, aged 18 and over.

Sampling method Respondents were selected from YouGov's opt-in Internet panel using

sample matching. A random sample (stratified by gender, age, race, education, geographic region, and voter registration) was selected from the 2016 American Community Study. Voter registration was imputed from the November 2016 Current Population Survey Regis-

tration and Voting Supplement.

Weighting The sample was weighted based on gender, age, race, education,

news interest, and 2016 Presidential vote. The weights range from 0.024 to 6.038, with a mean of one and a standard deviation of 0.784.

Number of respondents 1000

Margin of error \pm 3.9% (adjusted for weighting)

Survey mode Web-based interviews
