Thinking about the money the government has borrowed during the coronavirus outbreak, once the outbreak is over do you think...

It is more important that the government reduces borrowing and balances the budget, even if that means less money is available to support the economy or public services

It is more important that the government maintains spending to support the economy and public services, even if that means the amount of

Neither

It has been suggested that the current travel rules may be changed so that people who have had both doses of the corona vaccinations would be allowed to travel to countries on the "amber list" without having to self-isolate when they return. If this change did happen, how likely would you be to take an overseas holiday this summer?

YouGov Weighting Data

YouGov weights GB political surveys by (1) age interlocked with gender and education, (2) political attention (3) social grade (4) 2019 recalled vote interlocked with region and (5) EU referendum recalled vote. Weighting targets are YouGov estimates, data sources used in the calculation of targets are cited below. General election voting intention figures are additionally weighted by likelihood to vote. The poll was carried out online.

All polls are subject to a wide range of potential sources of error. On the basis of the historical record of the polls at recent general elections, there is a 9 in 10 chance that the true value of a party's support lies within 4 points of the estimates provided by this poll, and a 2 in 3 chance that they lie within 2 points.

	Unweighted no.	Weighted no.	Target %
Age by Gender by Education (Labour Force Survey and ONS Mid Year Estimates)
