8A. Police Protests — A genuine desire to hold officers accountable for their actions
As you may know, demonstrations have been held in many parts of the country in recent years to protest the deaths of African Americans who died during encounters with the police. How much, if at all, do you think these protests have been motivated by...

8B. Police Protests — Longstanding anger against the police?
As you may know, demonstrations have been held in many parts of the country in recent years to protest the deaths of African Americans who died during encounters with the police. How much, if at all, do you think these protests have been motivated by...

31. Rules for Removing Offensive Posts
Do you think the rules for removing an offensive social media post from a political leader/candidate should be the same as the rules for removing an offensive social media post from a regular person or should it be easier or more difficult for social media companies to remove offensive posts from a political leader/candidate?

33. Approve Internet Executive Order
Under current federal law, social media companies are protected from lawsuits over the things people post on their social media platforms. Last week Donald Trump signed an executive order that attempts to remove those protections for social media companies. Do you approve or disapprove of Donald Trump signing an executive order that attempts to remove those protections for social media companies?

<td>US Adult Population</td>
</tr>
<tr>
<td><strong>Sampling method</strong></td>
<td>Respondents were selected from YouGov’s opt-in Internet panel using sample matching. A random sample (stratified by gender, age, race, education, and region) was selected from the 2016 American Community Study. Voter registration was imputed from the November 2016 Current Population Survey Registration and Voting Supplement.</td>
</tr>
<tr>
<td><strong>Weighting</strong></td>
<td>The sample was weighted based on gender, age, race, education, and 2016 Presidential vote (or non-vote). The weights range from 0.2 to 6.502, with a mean of one and a standard deviation of 0.773.</td>
