Currently transgender people who wish to change their legal gender have to apply for a gender recognition certificate. This requires someone to have a diagnosis of gender dysphoria from a doctor, provide evidence they have lived in their new gender for at least two years, and make a declaration they intend to live in their new gender for the rest of their life. Only people over 18 can currently apply for a gender recognition certificate.

The Scottish Parliament has passed a law that changes the rules for applying for a Gender Recognition Certificate in Scotland. In future, transgender people in Scotland will be able to apply for a certificate after 6 months of living in their acquired gender (3 months, then a 3 month reflection period) and without the requirement of a doctor's diagnosis of gender dysphoria. The minimum age to apply for a certificate in Scotland will be reduced to 16. It would become a criminal offence to make a false application. The UK Government has blocked these proposed changes, claiming they will have a negative impact on how equality laws operate in the rest of the UK. Others have claimed it would not make any difference to equality laws.

## YouGov Weighting Data

YouGov weights GB political surveys by (1) age interlocked with gender and education, (2) political attention (3) social grade (4) 2019 recalled vote interlocked with region and (5) EU referendum recalled vote. Weighting targets are YouGov estimates, data sources used in the calculation of targets are cited below. General election voting intention figures are additionally weighted by likelihood to vote. The poll was carried out online.

All polls are subject to a wide range of potential sources of error. On the basis of the historical record of the polls at recent general elections, there is a 9 in 10 chance that the true value of a party's support lies within 4 points of the estimates provided by this poll, and a 2 in 3 chance that they lie within 2 points.
