The EU has recently rolled out a new 'digital covid certificate'. The certificate can be claimed by those wishing to travel between EU countries that have signed up to the scheme, who have had a coronavirus vaccine, a recent negative covid test result, or a proof of recovery from the virus. To what extent, if at all, would you support or oppose it being a requirement to have a covid digital certificate in order to travel between EU countries?

To qualify for a covid digital certificate you must have had a coronavirus vaccine, provide proof of recent recovery from the virus or have a recent negative coronavirus test result. To be counted as having had a coronavirus vaccine you must have had one of the vaccines licensed by the EU (Pfizer/BioNTech, AstraZeneca/Oxford University, Moderna or Johnson & Johnson). Do you think that those who have received coronavirus vaccinations not licensed by the EU (e.g. Sputnik) should or should not be able to qualify for a covid digital certificate?
