

Sample 2,112 Adults
Margin of Error $\pm 2.5\%$

1. How would you rate the condition of the national economy today?

Very good	4%
Fairly good	14%
Fairly bad	40%
Very bad	33%
Not sure	9%

2. Overall, how would you say things are going for the U.S. in its efforts to deal with the outbreak of coronavirus?

Very well	11%
Somewhat well	32%
Somewhat badly	33%
Very badly	24%

3. How would you rate the job Donald Trump is doing handling the coronavirus outbreak?

Very good	24%
Somewhat good	24%
Somewhat bad	16%
Very bad	36%

4. How would you rate the job Congress is doing handling the coronavirus outbreak?

Very good	5%
Somewhat good	36%
Somewhat bad	37%
Very bad	22%

5. As you may know, Congress is not currently in Washington, D.C. and scheduled to return May 4th. Should Congress return right now to try to deal with the outbreak or should Congress wait and return as planned on May 4th?

Return right now	61%
Not return right now	39%

6. Do you approve or disapprove of Congress passing additional legislation that would provide funds to small businesses impacted by the outbreak?

Approve	88%
Disapprove	12%

7. From what you have seen or heard, do you think the federal funds for businesses are going...

Mainly to small businesses	24%
Mainly to large businesses	49%
Evenly to both large and small businesses	27%

8. How would you rate the job your state and local officials have done handling the coronavirus response where you live?

Very good	24%
Somewhat good	45%
Somewhat bad	20%
Very bad	11%

9. If you had to choose, what should be the top priority for the country right now?

Try to get the economy going by sending people back to work, even if it means more people might be exposed to coronavirus	30%
Try to slow the spread of coronavirus by keeping people home and social distancing, even if the economy is hurt in the short term	70%

13. Regardless of your own situation, in terms of limiting the spread of the virus nationwide, do you feel stay-at-home orders around the country so far are...

Effective	76%
Not effective	24%

14. Which concerns you more regarding the lockdown and stay-at-home restrictions?: That...

Things will open up too fast, and the outbreak will get worse	63%
Things will open up too slowly, and the economy will get worse	37%

15. How comfortable would you, personally, feel going out to public places and being around crowds if all stay-at-home restrictions were lifted right now?

Very comfortable	11%
Somewhat comfortable	25%
Not very comfortable	29%
Not at all comfortable	35%

16. If all stay-at-home restrictions were lifted right now, then which best describes what you would probably do over the next few weeks:

Definitely return to public places, regardless of what you saw happen with the outbreak ..	13%
Maybe return to public places, depending on whether the outbreak was getting better or not	39%
Not return to public places, until you were confident the outbreak was over	48%

17. If the stay-at-home orders were lifted right now, would you be comfortable doing these things right away?

	Yes	No
Getting on an airplane	15%	85%
Visiting friends	54%	46%
Going to a large sports or entertainment event (if it were held)	13%	87%
Going to a workplace outside the home	44%	56%
Going out to restaurants or bars	29%	71%

18. Do you think widespread public testing to try to find out who is infected with coronavirus, and who is not, should be...

Necessary before opening up the country	56%
Necessary, but can be done after opening up the country	26%
Not necessary	17%

19. Who would you like to make the decisions about when to re-open the economy in your state or area?

Donald Trump	19%
Your state's governor	54%
Your local county or city officials	27%

24. In terms of direct impact on your own finances, like income or ability to pay bills, how long can the lockdowns and stay-at-home orders across the U.S. go on, before they impact you?

Is already impacting your finances	36%
Can go for another week or less before they impact finances	5%
Go on another few weeks before they impact finances	19%
Can go on for months before they impact finances	22%
Will probably never impact your finances	17%

27. Do you think Donald Trump's handling of the federal response to the outbreak has:

Favored Democratic states over Republican states	7%
Favored Republican states over Democratic states	41%
Considered state needs without regard to political party	52%

29. Do you think people who support shorter times for stay at home orders are doing so mostly because:

They feel they are doing what's best for their community	49%
To gain political advantage	51%

30. Do you think people who support longer times for stay at home orders are doing so mostly because:

They feel they are doing what's best for their community	72%
To gain political advantage	28%

31. Some people have been publicly protesting in state capitals against the lockdown and stay-at-home restrictions. Do you generally support or oppose these protestors?

Support	23%
Oppose	62%
Haven't seen them	15%

32. Regarding these protests in the state capitals, do you think Donald Trump should:

Encourage these kinds of protests in the states	7%
Discourage these kinds of protests in the states	55%
Not say anything about them one way or the other	38%

34. Since the coronavirus outbreak, which describes your current work situation?

Able to work from home or remotely, and doing so	20%
Able to work from home or remotely, but choosing not to	3%
Not able to work from home, and still going to work	15%
Not able to work from home, and not going to work	14%
Was not working outside the home before / am retired	33%
Something else	15%

35. How concerned are you that in the next few months you, or someone in your household, may lose a job or have a major reduction in paid work hours because of the coronavirus outbreak?

Very concerned	21%
Somewhat concerned	26%
Not too concerned	20%
Not at all concerned	21%
Already lost a job	7%
Already got reduced hours	5%

36. Are you concerned, or not concerned, about yourself personally or a close family member getting the coronavirus?

Very concerned	33%
Somewhat concerned	40%
Not very concerned	18%
Not at all concerned	9%

37. Do you feel that you, or someone in your household, is currently working at a job that brings a risk of exposure to coronavirus?

Yes	38%
No	62%

38. Have you or someone you personally know been diagnosed with coronavirus, or gotten ill from what doctors believed was coronavirus?

Yes	23%
No	77%

39. Was it you yourself, a member of your own household, or someone outside your household?

Asked of those who personally know someone who has been diagnosed with coronavirus, or gotten ill from what doctors believed was coronavirus

Self	7%
Household member	7%
Both self and household member	10%
Outside household	74%
All of these	2%

44. In general, how would you describe your own political viewpoints?

Very liberal	11%
Somewhat liberal	16%
Moderate	30%
Somewhat conservative	15%
Very conservative	14%
Not sure	14%

Other questions held for future release.

HOW THE POLL WAS CONDUCTED AND THE MARGIN OF ERROR CALCULATED

April 23, 2020

The CBS News survey is conducted by YouGov using a nationally representative sample of 2,112 U.S. adult residents interviewed online between April 20-22, 2020.

This sample was weighted according to gender, age, race, and education based on the American Community Survey, conducted by the U.S. Bureau of the Census, as well as 2016 Presidential vote and registration status. Respondents were selected from YouGov's opt-in panel to be representative of all U.S. residents. The weights range from 0.2 to 4.7, with a mean of 1 and a standard deviation of 0.6.

The *margin of error* (a 95% confidence interval) for a sample percentage p based upon the entire sample is approximately 2.5%. It is calculated using the formula

$$\hat{p} \pm 100 \times \sqrt{\frac{1 + CV^2}{n}}$$

where CV is the coefficient of variation of the sample weights and n is the sample size used to compute the proportion. This is a measure of sampling error (the average of all estimates obtained using the same sample selection and weighting procedures repeatedly). The sample estimate should differ from its expected value by less than margin of error in 95 percent of all samples. It does not reflect non-sampling errors, including potential selection bias in panel participation or in response to a particular survey.
